# ИГРЯЮЧКА МАТЕМАТИКА ДЛЯ ДЕТЕЙ 4—5 ЛЕТ

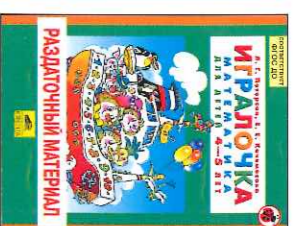

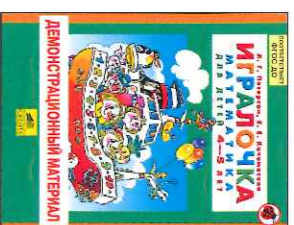

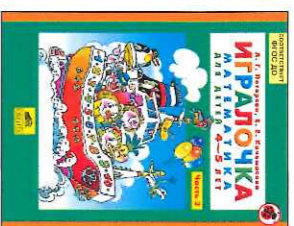

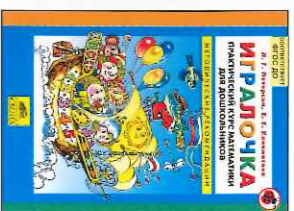

ДЕМОНОСТРАЦИОННЫЙ МАТЕРИАЛ

**Уважаемые воспитатели детских садов, учителя, родители!**

Перед вами **ДЕМОНСТРАЦИОННЫЙ МАТЕРИАЛ**, который является частью комплекта «Игралочка. Математика для детей 4—5 лет» авторов Л. Г. Петерсон и Е. Е. Кочемасовой.

- Комплект содержит:**
- 1 Методические рекомендации для воспитателей и родителей по организации занятий с детьми.
  - 2 Терядь, которая представляет собой длительный рабочий материал для индивидуальной работы с детьми.
  - 3 **ДЕМОНСТРАЦИОННЫЙ МАТЕРИАЛ.**
  - 4 Раздаточный материал, позволяющий обеспечить каждого ребенка, а также взрослого всем необходимым во время занятий.

4

**ДЕМОНСТРАЦИОННЫЙ МАТЕРИАЛ** расположен на отдельных листах. Вверху каждого листа имеется номер и тема занятия, на котором данный материал используется.

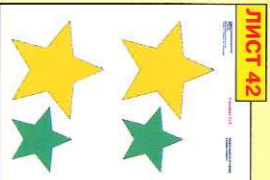

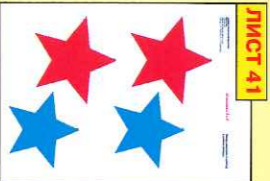

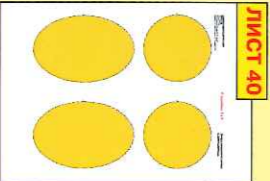

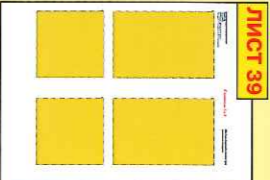

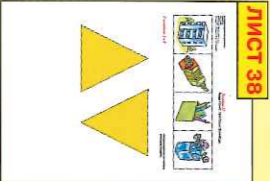

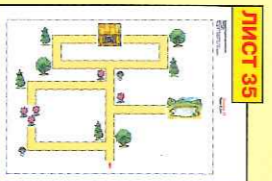

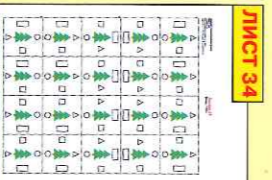

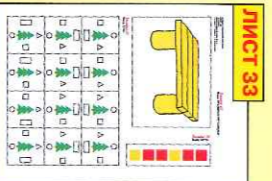

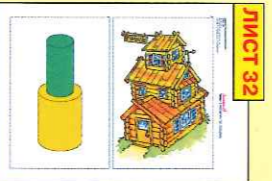

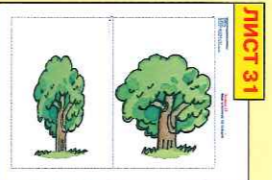

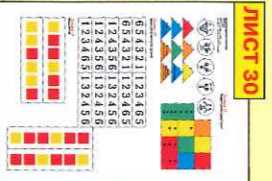

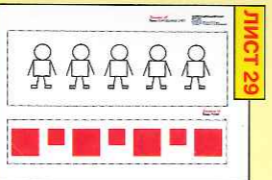

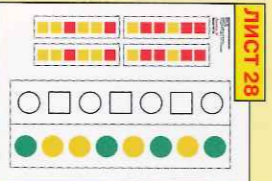

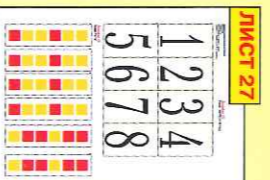

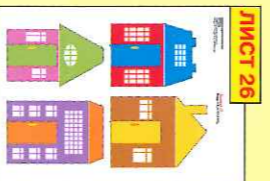

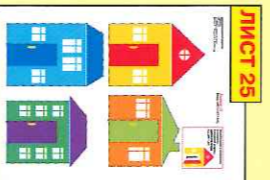

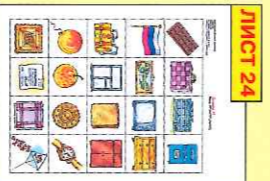

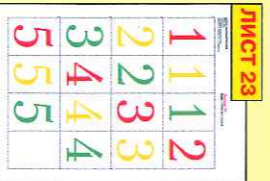

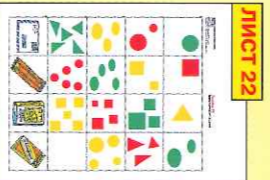

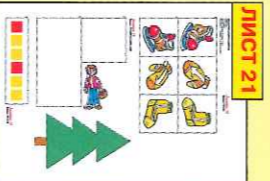

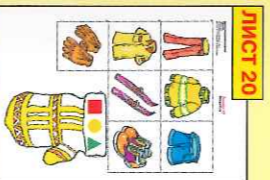

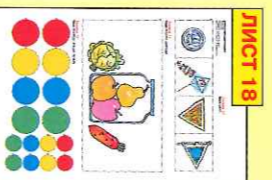

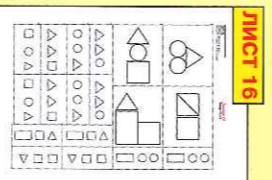

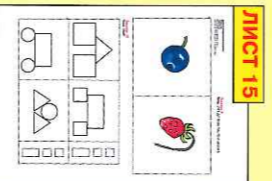

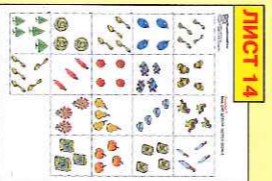

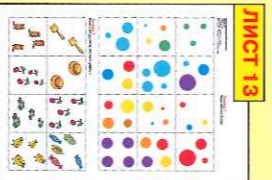

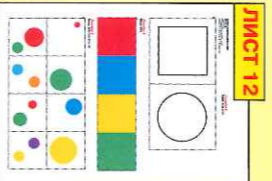

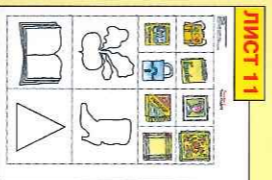

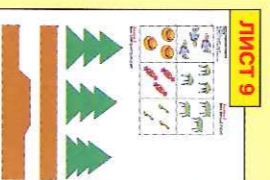

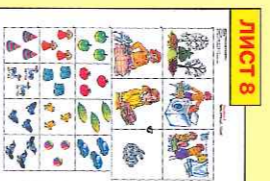

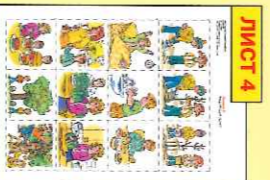

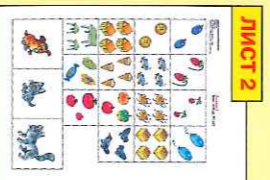

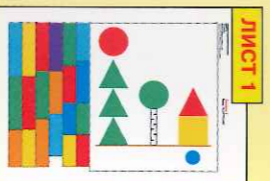

К демонстрационному материалу прилагаются **14 конвертов** и **1 лист с обозначением номеров листов и тем занятий.**

Для удобства пользования демонстрационным материалом сначала следует наклеить на каждый конверт номер и тему занятия. После этого, начиная с первого занятия, нужно по пунктирным линиям вырезать карточки, картинки, геометрические фигуры и складывать в соответствующие конверты.

На разных занятиях возможно различное использование раздаточного и демонстрационного материала: в одних случаях необходимо только раздаточный или только демонстрационный материал, в других — и тот и другой, в третьих — использование данных материалов не запланировано, т. к. дети на занятии пользуются игрушками, красками, соленым тестом и т. п.

Номера и темы занятий в методических рекомендациях, тетрадях, а также на листах раздаточного и демонстрационного материала совпадают.

Мы надеемся, что каждое занятие пройдет успешно и принесет удовольствие вам, а вашим детям — радость и пользу!
